First, download the pdf file with the assignment.

6.1 Equivalence Testing.pdf

Then, download the spreadsheet and R script that you will need to perform the simulations (right-click, choose 'Save File As' to download the R script - clicking the file will just open it as a text document in the browser).

6.1 TOST t-test.xlsx

6.1 Bayes Factor One-Sample T-test.R

Work through the assignment, and write down the answers to each question. You can enter the answers in the 6 Assignment Answer Form, where your answers will be graded.

Mark as completed
