Construct Some Matrices

The diagonal of a matrix A are the entries a_{ij} where $i = j$.

- (a) Write down the three-by-three matrix with ones on the diagonal and zeros elsewhere.
- (b) Write down the three-by-four matrix with ones on the diagonal and zeros elsewhere.
- (c) Write down the four-by-three matrix with ones on the diagonal and zeros elsewhere.

Note: Remember, you may check the solutions in the [lecture notes](#).
