Optional Radius (arcsec)

## Transit Surveys 22,649,919 Light Curves

The first space mission to search for Earth-sized and smaller planets in the habitable zone of other stars in our neighborhood of the galaxy.

KELT surveys transiting exoplanets around bright stars. We have 1.1 million light curves from fields N02, N04, N06, N08, N10, and N12.
