

## 2. Parsing: Instructions

---

[Help Center](#)

Assignment instructions:

- You are free to use any programming language you wish. The sample code is in Python, but you will not need to call it from your code.
- You can use external libraries, but do **not** use NLP libraries such as NLTK.
- Be careful about your output. Make sure you remove any debug print statements before submitting.

[Assignment Description](#)

Note: The last part is optional but we encourage interested students to give it a try.

[Assignment Files](#)

Expected development total F1-Scores are 0.79 for part 2 and 0.83 for part 3.
