# Acknowledgments

Special thanks to the following people for their contribution in creating the Math for Machine Learning and Data Science specialization.

Advice on Teaching Best Practices

- Andrew Ng

Instruction & Course Design

- Luis Serrano (Instructor)
- Anshuman Singh (Curriculum Architect)

Curriculum Development Support & Quizzes

- Magdalena Bouza (Slide development)
- Obed Nsiah (Slide development)
- Eranda Bregassi (Slide and quiz development)

Engineering Support & Code Review Consultants

- Elena Sanina (Curriculum Engineer)
- Jan Ravnik (Code Reviewer)

Learning Technology

- Lucas Coutinho
- Mubashar Khawar

Alpha Testing and Mentorship

- Giovanni Lignarolo
- Deepthi Locanindi

Marketing

- Rowan Bradley
- Alice Lin

Video Production

- Nicholas Camp
- Caroline Cuny
- Rajiv Smith-Mahabir

Additional Administrative and Content Support

- Ryan Keenan
- Julia Chernushevich

Alpha Testers

- Innah Martinez
- Khoi Tran
- Nabil Mezher
- Titus Teodorescu
- Wen-yu Tzeng

We would like to thank the mentors for supporting learners as they take the course, as well as the alpha testers who provided several rounds of feedback as we revised the course.

Finally, we would like to thank YOU for taking the course and joining the global community of learners!
