

# **Session 6: Subspace Clustering III: Bi-Clustering Methods**

# In-video Quiz

❑ Given the following genetic data with genes and condition information, does this data contain any bi-clusters (ideal case)?

☐ Yes

☐ No

❑ Answer: Yes.

❑ Explanation: The submatrix, indicated in red, is a bi-cluster.

11	22	33	27
8	4	25	22
8	19	30	18
5	24	11	18

❑ Note: There is more than one bi-cluster.
