Quiz

Certificate or Audit?

Learners who are taking this course and are eligible to receive a certificate of completion will be able to receive a final grade for the course. These learners should take the **Quiz** at the end of each Week.

Learners who are auditing this course and are not eligible to receive a certificate should take the **Practice Quiz** at the end of each Week with (audit) in the title. Learners will be able to submit these quizzes to see their score, but will not receive a grade for their work.

You should see both versions of every Week # Assessment in the course content. If you are auditing the course, always take the **Practice Quiz**. If you are eligible for a certificate of completion, always take the **Quiz**.

Here is a screen shot from Week One:
