Rock Paper Scissors Dataset

Introducing Rock Paper Scissors – A multi class learning dataset

Abstract

Rock Paper Scissors is a dataset containing 2,892 images of diverse hands in Rock/Paper/Scissors poses. It is licensed CC By 2.0 and available for all purposes, but it's intent is primarily for learning and research.

Overview

Rock Paper Scissors contains images from a variety of different hands, from different races, ages and genders, posed into Rock / Paper or Scissors and labelled as such. You can download the training set here, and the test set here. These images have all been generated using CGI techniques as an experiment in determining if a CGI-based dataset can be used for classification against real images. I also generated a few images that you can use for predictions. You can find them here.

Note that all of this data is posed against a white background.

Each image is 300×300 pixels in 24-bit color

Examples

Here are a few examples showing some of the poses, and the diversity of hand model used.

License

The dataset is licensed as a CC By 2.0, free for you to share and adapt for all uses, commercial or non-commercial. Please just attribute and give appropriate credit to Laurence Moroney (lmoroney@gmail.com / laurencemoroney.com), and place no additional restrictions on your users as outlined here.
