Have questions? Meet us on Discourse!

Hello! At this point, you might already have some questions about the topics you've seen so far.

To answer all your queries and give you the opportunity to connect with your fellow learners and mentors, we've created a DeepLearning.AI community on Discourse. Sign up to keep learning or log in here if you've already created an account!

Our Discourse community is not just a place for help regarding our courses, but also a place where you will be informed about our upcoming events and competitions.

If you are new to using Discourse, don't worry, we have got your back. We have created a Discourse Guide for you.

We hope to see you there!

-The DeepLearning.AI team
