Apriori Algorithm Case Study

Let's play with a case study to gain more experience!

In this case study, you will be given a dataset to play with the knowledge you just gained. You can simply try the basic methods, you can also try exhaustive methods that even beyond our teaching. You can create a new Google Colaboratory file, and upload the dataset into its file folder.

You do NOT need to submit your work. Just enjoy your exploration!

You can access and download the dataset via
https://www.kaggle.com/datasets/ahmtcnbs/datasets-for-appiori ↗
