Further Resources

Resources for the learners interested in going even *deeper* into Deep Learning vision systems - pun intended :)

1. Advanced DL architectures: <u>LeNet</u>, <u>AlexNet</u>, <u>VGGNet</u>, <u>Inception</u>, <u>ResNet</u>

2. John Redmon's <u>YOLO</u> (You only look once)

3. <u>Deep Dream Generator</u> project

4. <u>Generative adversarial networks</u> (GANs)

Books

- *Deep Learning*, by Ian Goodfellow

- *Hands on Machine Learning with Scikit-Learn & Tensorflow,* by Aurelien Geron: <u>Book</u> and <u>github repository of code and exercise solutions</u>
