Applied Information Extraction in Python

Today's goal • 3/3 items

Module 1
Information Extraction

Welcome to the Course
- Welcome to Information Extraction
  Video • 6 min
- MADSwPy Certificate Roadmap
  Reading • 10 min
- Course Syllabus
  Reading • 10 min
- Introduction to Jupyter Notebook
  Reading • 10 min
- Meet Other Learners
  Discussion Prompt • 10 min
- Help Us Learn About You
  Reading • 10 min

Introduction to Information Extraction
- What is Information Extraction?
  Video • 8 min
- Information Extraction in Different Domains
  Video • 6 min
- Knowledge Check: Introduction to Information Extraction
  Practice Assignment • Grade: 100%

Rule-Based Approaches to Information Extraction
- Extracting Formatted Information
  Video • 7 min
- **Regular Expressions in Detail**
  Reading • 20 min
- Lookup Based Extraction
  Video • 4 min
- Knowledge Check: Rule-Based Approaches to Information Extraction
  Practice Assignment • 10 min

How to Set Up Rule-Based Approaches in Python
- Demo: Using Regular Expressions & Examining Output
  Video • 4 min
- Jupyter Notebook Practice on Basic NLP and Rule-Based Extraction
  Lab • 1h

Module Wrap-Up & Assignments
- Assignment 1 Introduction: Formatting & Normalizing Data with Regular Expressions
  Video • 4 min
- Build an Information Extraction Pipeline for Template/List-Based Fields
  Programming Assignment • 3h
- Module 1 Assignment
  Graded Assignment • 30 min

Regular Expressions in Detail

0:18 / 0:38 2x

So far we have briefly reviewed the power of regular expressions and how regexes can be used to capture information from templated text. Here is an article titled
Understanding Regular Expressions (Regex) with Real-World Examples that walks through:

- How to write regular expressions in Python,
- What special symbols and notations are used to denote different characters in regexes, and
- How to put them all together.

When reading this article, please pay special attention to the **real-world examples** on how to identify phone numbers and addresses, as you will get an opportunity to try some of these later in this course!

Mark as completed
